PROFILE

Aspiring UI/UX Designer with a Computer Science background and a strong interest in creating clear, intuitive, and engaging digital experiences. Developed user-centered design concepts through academic and self-initiated projects, from user flows and wireframes to polished interface designs and interactive prototypes. Eager to learn, collaborate, and contribute thoughtful design solutions as part of a professional product team.

Problem Solving

MY DESIGN PROCESS

1. Problem Understanding
2. Solution / Goals
3. Information Architecture
4. User Flow
5. Wireframing
6. UI Design
7. Design System
8. Prototyping
9. Improvement
10. Final Design
11. Case Study

DESIGN APPROACH

Understand users' needs and create simple, intuitive, and user-friendly experiences. Focus on clear layouts, thoughtful design decisions, and balancing usability with visual appeal.

Why me?

I bring a Computer Science foundation, practical UI/UX project experience, and a thoughtful, user-centered approach. I enjoy turning complex ideas into clear, usable interfaces, work confidently in Figma, and welcome feedback to keep improving. I am eager to learn, collaborate, and contribute with care to a product team.
